EXPERIENCE

NetRom Software

Junior Full-Stack Developer   **Apr 2024 - Oct 2024**

- Developed frontend with React.js, creating dynamic and responsive user interfaces
- Built reusable UI components and managed state using React hooks and Redux
- Integrated APIs to enable communication between the frontend and backend using RESTful services
- Developed backend with .NET for business logic, API endpoints, and data handling
- Utilized Entity Framework as an ORM for database interactions, including writing LINQ queries
- Defined data models and managed database migrations for evolving application schemas
- Designed relational database structures, setting up entity relationships with foreign keys
- Conducted testing and debugging with Postman and Swagger
- Managed version control using Git in SourceTree, following SCRUM methodologies
- Implemented features to streamline vehicle fleet and workshop management workflows

Internship   **Aug 2023 - Sep 2023**

- Collaborated in a SCRUM environment, handling both frontend and backend tasks for a web application
- Frontend development: Used ReactJS with TypeScript
- Backend development: Utilized ASP.NET with Entity Framework for database interactions
- Implemented JWT-based login, event management, phase editing, and CSV data import for interview phases
- Enhanced the system to display applicant information received from the consumer side
- Worked with APIs, conducted testing using Postman and Swagger
- Managed version control using Git in SourceTree

Liga AC LABS

Liga AC LABS Technical Responsible   **Aug 2022 - May 2023**

- Working with the Angular framework and other web-related technologies like HTML, CSS, TypeScript, SQL
- Administering the LABS database
- Organizing work sessions for LABS website development and testing

Google Developer Students Club UPT

Member of the club   **Oct 2022 - May 2023**
- Completed trainings in Git, AngularJS, ReactJS, and Python
- Worked on the GDSC frontend team using AngularJS
- Helped maintain and develop new university projects
- Participated in Coding Nights to enhance coding skills
